

Committee on Sanitary and Phytosanitary Measures

SPECIFIC TRADE CONCERNS

Note by the Secretariat¹

Revision

1. At the 15-16 March 2000 meeting of the SPS Committee, the Secretariat was requested to prepare a paper summarizing the specific trade concerns that had been brought to the Committee's attention since 1995.² The Secretariat has revised this document annually to include new information provided by Members (G/SPS/GEN/204/Rev.1 to 10). The specific trade concerns in the eleventh revision of G/SPS/GEN/204 maintain the previously assigned numbers according to the chronological order of the Committee meetings in which they were first raised. These numbers serve as unique identifiers and are intended to facilitate tracking of individual trade concerns over time. The new trade concerns raised in each Committee meeting are numbered in the order of the alphabetic list of Members maintaining the measures.
2. The eleventh revision of G/SPS/GEN/204 is divided into 4 sections:
 - Overview and summary graphs and tables (this section)
 - Issues considered in 2010 (Addendum 1)
 - Issues not considered in 2010 (Addendum 2)
 - Issues resolved before 2010 (Addendum 3).
3. This first section (G/SPS/GEN/204/Rev.11) of the document contains summary statistics and graphs for all the trade concerns raised in the SPS Committee between the first regular meeting of 1995 and the last regular meeting of 2010. The trade concerns are categorized as relating to food safety, animal or plant health. This section also includes a summary table which identifies for each specific trade concern according to the assigned number, the Member(s) maintaining the measure, the Member(s) raising the concern, as well as information on where the issue is described.
4. Addendum 1 (G/SPS/GEN/204/Rev.11/Add.1) of the document contains information regarding all issues which were raised in the SPS Committee in 2010. This includes (1) issues raised for the first time in 2010; (2) issues which were previously raised but on which further discussions or activities occurred during 2010; and (3) issues for which there was no substantive discussion in the Committee during 2010, but where Members reported that a previously raised issue had been resolved, or where substantive action on the issue occurred in another WTO body during 2010 (e.g., establishment of a dispute resolution panel on the issue).

¹ This document has been prepared under the Secretariat's own responsibility and is without prejudice to the positions of Members or to their rights or obligations under the WTO.

² G/SPS/R/18, para.20.

5. Addendum 2 (G/SPS/GEN/204/Rev.11/Add.2) of the document contains information regarding all issues which were raised in the SPS Committee between 1995 and 2010, and on which no further discussion or activities occurred during 2010.

6. Addendum 3 (G/SPS/GEN/204/Rev.11/Add.3) of the document contains information regarding all issues which were raised in the SPS Committee between 1995 and 2010, and on which a resolution was reported prior to 2010.

7. Altogether, 312 specific trade concerns were raised in the sixteen years between 1995 and the end of 2010. Figure 1 shows the number of new concerns raised each year; 22 new concerns were raised in 2010.

8. Figure 2a categorizes the trade concerns raised over the sixteen years into food safety, animal or plant health issues. Overall, 28 per cent of trade concerns relate to food safety concerns, 25 per cent relate to plant health, and six per cent concern other issues such as certification requirements or translation. Forty-one per cent of concerns raised relate to animal health and zoonoses. The animal health and zoonoses category is further divided into foot-and-mouth disease (FMD), transmissible spongiform encephalopathy (TSEs), Avian Influenza (AI) and other animal health concerns (OAH). Figure 2b shows that TSEs account for 35 per cent of animal health concerns, while issues related to foot-and-mouth disease account for 24 per cent. The remaining 41 per cent relate to other animal health concerns and avian influenza.

9. Developing countries are participating actively under this agenda item in the SPS Committee meetings. Figure 3a indicates that over the sixteen years, developing country Members have raised 163 trade concerns (on many occasions more than one Member has raised, supported or maintained an issue) compared to 195 raised by developed country Members and three raised by least-developed country Members.³ A developing country Member has supported another Member raising an issue in 199 cases, compared to 141 for developed country Members and one for least-developed country Members. In 188 cases, the measure at issue was maintained by a developed country Member, and in 161 cases it was maintained by a developing country Member. One trade concern regarding measures maintained by a least-developed country Member has been raised. Figure 3b shows the number of new issues raised each year by developing country Members.

³ The European Union was counted as one Member. Similarly, when one Member spoke on behalf of ASEAN, it was counted as one Member only.

10. Figure 4 indicates that 82 trade concerns have been reported resolved out of the 312 trade concerns raised over the sixteen years. Four issues were reported resolved in 2010. Eighteen trade concerns have been reported partially solved. In these instances, trade may have been allowed for selected products or by some of the importing Members maintaining the measure in question. No solutions have been reported for the remaining 212 trade concerns. Excluding the 22 new issues raised in 2010, there are 190 trade concerns that are at least one year old and for which no solution has been reported. However, some of these concerns may have been resolved without the Committee being aware of these developments.
