G/SPS/N/EEC/289/Add.3	<a href="#">European Communities - Pesticides - Residues - Addendum</a> Final text, Regulation (EC) No 1107/2009 concerning the placing of plant protection products on the market .	07/12/09
G/SPS/N/EEC/359/Add.1	<a href="#">European Communities - Porcine semen - Addendum</a> Final text, 2009/893/EC on importation of semen of domestic animals of the porcine species into the Union as regards lists of third countries and of semen collection centres, and certification requirements.	10/12/09
G/SPS/N/EEC/361	<a href="#">European Union - Food additives other than colours and sweeteners</a> The draft Commission Directive amending Directive 95/2/EC foresees to authorize new food additives or extend uses for food additives already permitted under Directive 95/2/EC.	04/12/09
G/SPS/N/EEC/362	<a href="#">European Union - Food additives</a> Regulation (EC) No 1333/2008 on food additives requires that foods which contain one or more of colours E110, E104, E122, E129, E102 and E124 should bear an additional labelling indicating that these colours may have an adverse effect on activity and attention in children. This provision will apply from 20 July 2010. There is also a requirement that the legislation is kept up to date in the light of scientific and technological developments. The colours listed in Annex V to Regulation (EC) No 1333/2008 are permitted to be used in certain alcoholic beverages. Such products, which contain more than 1,2 per cent by volume of alcohol are not intended to be consumed by children, therefore the additional labelling provided for in Annex V of Regulation (EC) No 1333/2008 would not be necessary neither appropriate for these foods. Annex V to Regulation (EC) No 1333/2008 needs to be therefore amended to exempt these products from the additional information requirement.	10/12/09
G/SPS/N/EEC/363	<a href="#">European Union - Aquaculture fish including ornamental aquatic animals</a> The draft Regulation updates the wording of the attestations of the model of animal health certificates as regards the following diseases: Spring viraemia of carp (SVC), Bacterial kidney disease (BKD), Infectious pancreatic necrosis virus (IPN) and Infection with Gyrodactylus salaris (GS) to bring them in line with the principles of 2006/88/EC and the latest development of the OIE Animal Health Code as regards the above-mentioned diseases.	10/12/09
