Whisky — Specification
TECHNICAL COMMITTEE REPRESENTATION

The following organizations were represented on the Technical Committee:

Ministry of Health — Public Health Department
Government Chemist’s Department
London Distillers Ltd.
(UDV) Kenya Ltd.
Kenya Wine Agencies Ltd.
East African Breweries Ltd.
Keroche Industries Ltd.
Africa Spirits Ltd.
Institute of Packaging, Kenya
Spectre International Ltd.
Agro-Chemical (K) Ltd.
National Campaign against Drug Abuse (NACADA)
Consumer Information Network
Weight and Measures Department
Kenya Revenue Authority
Kenya Bureau of Standards — Secretariat

REVISION OF KENYA STANDARDS

In order to keep abreast of progress in industry, Kenya Standards shall be regularly reviewed. Suggestions for improvements to published standards, addressed to the Managing Director, Kenya Bureau of Standards, are welcome.
Whisky — Specification
National Foreword

This Kenya Standard was prepared by the Alcoholic Beverages Technical Committee under the guidance of the Standards Projects Committee, and it is in accordance with the procedures of the Kenya Bureau of Standards.

This standard is identical with and has been reproduced from EAS 141, Whisky — Specification, published by the East African Community (EAC). The National Standards Council has endorsed the adoption of the 2014 edition of this standard as a Kenya Standard.

For the purposes of this standard, the text of the East African Standard should be modified as follows:

a) Terminology

The words 'this Kenya Standard' should replace the words 'this East African Standard', wherever they appear.

b) References

The references to East African Standards should be replaced by references to the appropriate Kenya Standards, where they have been declared.

Foreword

Development of the East African Standards has been necessitated by the need for harmonizing requirements governing quality of products and services in the East African Community. It is envisaged that through harmonized standardization, trade barriers that are encountered when goods and services are exchanged within the Community will be removed.

In order to achieve this objective, the Community established an East African Standards Committee mandated to develop and issue East African Standards.

The Committee is composed of representatives of the National Standards Bodies in Partner States, together with the representatives from the private sectors and consumer organizations. Draft East African Standards are circulated to stakeholders through the National Standards Bodies in the Partner States. The comments received are discussed and incorporated before finalization of standards, in accordance with the procedures of the Community.

East African Standards are subject to review, to keep pace with technological advances. Users of the East African Standards are therefore expected to ensure that they always have the latest versions of the standards they are implementing.

EAS 141 was prepared by Technical Committee EASC/TC 007, *Alcoholic and non-alcoholic beverages*.

Whisky — Specification

1 Scope

This East African Standard specifies the requirements and methods of sampling and test for whisky (whiskey).

2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

CAC/GL 66 Guidelines for the use of flavourings

CODEX STAN 192, General standard for food additives

EAS 12, Drinking (potable) water — Specification

EAS 38, Labelling of pre-packaged foods — Specification

EAS 39, Hygiene in the food and drink manufacturing industry — Code of practice

EAS 100, Food stuffs — Methods of determination of Lead

EAS 123, Distilled water — Specification

EAS 144, Neutral spirit — Specification.

3 Terms and definitions

For the purposes of this standard, the following terms and definitions shall apply.

3.1 whisky
alcoholic spirit obtained from a distillation of fermented mash of malted or unmalted grains such as barley, sorghum, maize, rye or other cereal grain with or without aging

3.2 malt whisky
whisky made exclusively from malted cereals

NOTE Malt whisky from grains other than barley are also known as grain whisky.

3.3 unmalted whisky
whisky made exclusively from unmalted cereals
3.4
blended whisky
blend of malt whisky, and neutral spirit

4 Quality requirements

4.1 Ingredients

The ingredients for whisky shall include the following:

a) distilled water conforming to EAS 123 or demineralised water;

b) neutral spirit, if used for blending, conforming to EAS 144; and

c) flavouring agents, if used, in accordance with CAC/GL 66.

4.2 General requirements

Whisky shall be:

a) free from any extraneous substances; and

b) free from haze and particulate matter.

4.3 Specific quality requirements

4.3.1 Whisky shall also comply with the requirements given in Table 1 when tested in accordance with EAS 104.

Table 1 — Requirements for whisky

<table>
<thead>
<tr>
<th>SI No</th>
<th>Characteristic</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

National deviation

*Ethyl alcohol, %, v/v at 20 °C shall be 37.5 - 45.*

4.3.2 Blended whisky shall have a minimum of 10 % of absolute alcohol volume from malted and/or unmalted whisky.
5 Food additives

Food additives may be used in the preparation of whisky in accordance with CODEX STAN 192.

6 Heavy metal contaminants

When tested in accordance with EAS 100 the level of lead shall not exceed 0.01 mg/L.

7 Hygiene

Whisky shall be manufactured and handled in a hygienic manner in accordance with EAS 39.

8 Weights and measures

The volume and fill of whisky shall comply with the weights and measures regulations of Partner States or equivalent legislation.

9 Packaging

9.1 Whisky shall be packaged in suitable food grade containers.

National deviation

Whisky shall be packaged in glass bottles of not less than 100 mL capacity.

9.2 Whisky shall be packaged for bulk delivery and storage in containers that shall prevent contamination of the product and preserve its safety and quality.

10 Labelling

In addition to the requirements of EAS 38, the following specific labelling requirements shall apply and shall be legibly and indelibly marked:

a) common name as ‘Whisky or Blended whisky’;

b) name, physical location and address of manufacturer;

c) ethyl alcohol content, % by volume;

d) net content;

e) declaration by common name of any additives used;

f) date of manufacture;

g) batch identification number/code;

h) country of origin; and

i) statutory warnings.
11 Sampling and test

Sampling and testing of potable spirit shall be done in accordance with EAS 104.
KEBS CERTIFICATION MARKS

1. Product Certification Marks

KEBS Standardization Mark (S-Mark) is issued for use on products that comply with the minimum quality requirements prescribed in Kenya standards. It uses standards as a benchmark for quality compliance and aims at giving manufacturers improved market access and also giving consumers an assurance of quality for the products bearing the mark.

Diamond Mark of Quality
SYMBOL FOR PRODUCT QUALITY EXCELLENCE

Import Standardization Mark
SYMBOL FOR PRODUCT QUALITY

2. Systems Certification Marks

ISO 9001 REGISTERED FIRM
QUALITY MANAGEMENT SYSTEM

OCCUPATIONAL HEALTH AND SAFETY
OHSAS 18001

ISO 14001 REGISTERED FIRM
ENVIRONMENTAL MANAGEMENT SYSTEM

ISO 22000 REGISTERED FIRM
FOOD & SAFETY MANAGEMENT SYSTEM

KEBS is mandated to provide Standardization, Metrology and Conformity Assessment Services through:

- Promotion of standardization in commerce and industry
- Provision of testing and calibration facilities
- Control of the use of standardization marks
- Undertaking educational work in standardization
- Facilitation of the implementation and practical application of standards
- Maintenance and dissemination of the International System of Units (SI) of measurements

KEBS offers the following services:

- Standards development and harmonization
- Testing services
- Measurement services (Calibration)
- Enforcement of standards
- Product inspection services
- Education and Training in Standardization, Metrology and Conformity Assessment
- Product and Management Systems Certification Services

INFORMATION ON STANDARDS

Standards are documents that provide a common reference point for the assessment of the quality of goods and services. Standards facilitate transparency in the exchange of products and enhance market access of Kenyan products into local, regional and international markets.

Information on standards and related documents is available at the KEBS standards information centre.

KEBS houses the WTO-TBT National Enquiry Point (NEP) which disseminates notification likely to affect international trade to the industry.

KEBS also provides technical advice on installation and improvement of quality goods and services to the industry so as to facilitate efficient implementation of standards. Some of the advantages of standards include: enhancement of quality assurance, safety and environmental protection measures, minimization of wastage, reduction of costs and unnecessary varieties and promotion of interchangeability and increased productivity in industry.
